## RECEIVES GERMAN HELMET

Chase Webb Has Helmet  
Taken From German Ware  
House as a Souvenir

IS ONE OF 85,000 TAKEN

Chase Webb is in receipt of a German helmet sent him by the County Chairman of the Liberty loan committee, in recognition of his efficient service as township chairman in each of the five loan campaigns. The helmet which arrived the fore part of the week is on exhibition at Webb's store and is attracting a great amount of attention. It was accompanied by the following letter, which gives its history and tells how it came into the possession of the Americans.

"When the American Army entered Metz, in December, 1918, officers on inspection tour found a large warehouse. Investigation showed it was filled with nickel-plated gun-metal and leather helmets. There were 800 of them. Every helmet was oil and highly polished. Some had a black-pine slopping down to the entire back of the head. They were wrapped up carefully in the nickel-plated headpieces resembling the glittering covering worn by the Centurions of ancient Rome, rather than any modern military helmets. The American officers questioned a German officer detailed to watch over a warehouse until the Americans arrived.

"The helmets were kept here against the day our soldiers entered Paris," he answered. "The helmets were to have worn the nickel-plated ones when they rode through the streets. The Infantry were to wear the others. A German firm by the name of Junker manufactured them all in 1916 by special order."

## State Board Ready to Award Road Contracts

A portion of the road lead west of Waukegan and near Gurnee is to be improved this summer.

The following dispatch received in Springfield tells of some of the plans of the state board of public works:

"The state department of public works and building announces that it would open bids at 11 o'clock, May 16, for the construction of section J, 6, of state aid roads in Lake county constructed of concrete for a distance of 6,000 feet from Gurnee. The department estimates of the cost at \$21,400. Bids were advertised for section to open April 30, but were no bidders for the work."

Couldn't Risk It.

A good story is told of George Guscock of Georgia. When the war was 70 years ago, elected a representative, a friend asked: "Get down at his house."—Springfield

"No, sir," was the prompt response. "I am his adversary, and choose to subject myself to his fascination."

Jews in English Cities.  
There are more Jews in Manchester than in any other city in the United Kingdom. For its size Leeds has the largest Jewish population in proportion to Manchester. The actual number is still a matter of conjecture.

## ANTIOCH RAISED ITS FULL QUOTA

Two Hundred and Forty-one  
Individual Subscriptions  
Amounted to \$55,000

BOY SCOUTS SECURE \$5,350

Antioch township raised every cent of its quota of the Victory loan, much to the surprise of even the most enthusiastic boosters. In the beginning the subscriptions came in very slowly and at the time of going to press last Thursday actual figures showed that only \$34,050 of our \$63,500 had been raised, thus leaving \$29,450 to be provided for in the last two days of the campaign, and so we announced to the public.

Then came the surprise, the subscriptions fairly poured in and Saturday afternoon when the final checking up showed that there were 241 individual subscriptions amounting to \$55,000 the two banks came forward and made up the remaining \$8,500.

The Boy Scouts made a house to house canvass during the last week of the campaign and by their united efforts secured 48 subscriptions amounting to \$5,350 made up as follows:

Howard Spafford 15 bonds, total \$1000  
Roy Kennedy 12 bonds, total 2350  
Albert Tiffany 10 bonds, total 700  
Gordon Ames 4 bonds, total 400  
John Beebe 3 bonds, total 300  
Floyd Mathews 3 bonds, total 300  
Burdette Johnson 1 bond, total 300

Howard Spafford received a medal from the government for securing ten subscriptions to the third Liberty loan. For his work in the Victory loan he will receive a bar to be attached to the first medal. For securing ten or more subscriptions Roy Kennedy and Albert Tiffany will each receive a medal.

Those who sold less than ten and those who were unable to sell any are deserving of credit for the efforts.

Complete returns are not yet in but it is known that Waukegan, Avon, Benton, Cuba, East Deerfield, Libertyville, Shields and Warren townships have also raised their entire allotment.

## Henry Strang of Waukegan Succumbs to His Injuries

Henry Strang, who was seriously injured in an auto accident in Kenosha about two weeks ago and whose condition for a time was considered as favorable, suffered a relapse last Thursday evening and his family were hastily summoned to his bedside in the Kenosha hospital. Serious complications developed and he passed away Monday morning.

The deceased was born at Millburn and was among the best known people in that locality. When a young man he learned the barber trade and located here. He was Antioch's first barber. About twenty-five years ago he moved to Waukegan and entered into the same business. A few years ago he took Lew Gullidge into partnership and about three months ago sold his interests to his partner and retired from active business.

In the recent campaign Mr. Strang was elected as commissioner of the city of Waukegan and although he qualified for the position, his injuries and death prevented him from having assumed his new duties.

There were few men better known in the county than Mr. Strang. He numbered his friends by the thousands. Besides his widow he leaves two children, Gerald and Ethel, also the following brothers and sisters: Will of Waukegan; Robert, of Gurnee; George, of Grayslake; Thomas of Libertyville; Peter, of Millburn; Mrs. Philip Benschinger, of Libertyville; and Miss Emma Strang of Waukegan.

The funeral services were held Wednesday morning and were attended by an exceptionally large number of relatives and friends. The supervisors, the city and county officials attended in a body.

## WORKING TO IMPROVE OUR ROADS

Antioch Commercial Association  
Will Endeavor to Get  
Work Begun at Wis. Line

PLAN OTHER IMPROVEMENTS

The Antioch Commercial association is bending every effort to improve the roads in this locality and is doing all within its power to have the construction of the proposed cement road through this village begun at the Wisconsin state line. The association through its secretary, W. R. Williams has sent to the State Highway Commission the following letter:

May 10, 1919  
State Highway Commission,  
Springfield, Illinois,

Gentlemen:—

The Antioch Commercial Association has adopted a resolution respectfully petitioning your early attention to the building and construction of that portion of Route No. 21 (State Bond Road) which falls within the limits of the Village of Antioch. It is noted that the law seems to require that so far as practicable construction in different parts of the state shall be commenced at approximately the same time. The section of road in question is in bad condition and is a part of one of the main highways leading northwest from Chicago to the Lake region of Northern Illinois and Southern Wisconsin.

In view of such condition and the importance to the traveling public generally, you are requested to make the section from the State Line south through the Village of Antioch, the first section in Lake county to be improved.

The association confidently feels that it represents the sentiment of the community in this position and, furthermore, a very large part of the City of Chicago whose summer homes and interests are in this section of the State. Any information as to this petition will be gladly furnished. The Association will use every endeavor to cooperate in such movement.

Respectfully yours,  
W. R. Williams,  
Secretary.

## Arthur Jyrch Brings Home Bride

Bugler Arthur J. Jyrch, who recently returned from France has received his honorable discharge from Camp Sherman, Ohio. Immediately after receiving his discharge he left for Cincinnati where he was united in marriage to Miss Flora Meyer and surprised his parents Mr. and Mrs. Karl Jyrch by returning to Chicago with his bride. After a short honeymoon spent at the Jyrch summer home at Petite lake the young couple will return to Cincinnati where the groom is engaged in the automobile business. The happy couple were given a reception at the home of the bride and also one at the home of the groom's parents upon their return to Chicago. Their many friends unite in wishing them a long and happy journey through life.

## What the Peace Pact Provides

Never again will the military autocracy of Germany be a menace to the peace and civilization of the world. Not, at least, if the terms of the treaty which the leading statesmen of the allied and associated powers have been laboring over for months in Paris are accepted and enforced. On another page of this issue of the News will be found a summary of the provisions of the document that Germany must sign if she would have peace. It is one of the most notable covenants written in decades, and you will find it exceedingly interesting reading.

Last Word in War Vessels.  
Superdreadnought is a name given to vessels of the dreadnought type. The displacement is 25,000 tons or more. The speed attained may be twenty-five knots or sea miles (a sea mile is 2,000 yards), and the main battery consists of guns of 18.5 inches caliber or better. A superdreadnought is the last word in naval architecture.

## Mrs. E. O. Hawkins Dies at Her Home Thursday

Last Thursday evening the Angel of death entered the home of E. O. Hawkins and removed therefrom the wife and mother. Mrs. Hawkins had been quite poorly for several weeks but was considered much better until the Friday previous to her death when pneumonia suddenly developed. From that time on grave fears for her recovery were entertained and the youngest son Earl, the only one of the family at a distance, was sent for. And although he had scarcely recovered from the effects of an operation for appendicitis, he undertook the trip from Montana and arrived about a half hour before she died.

Miss Nellie Gillmore was born in the town of Avon, April 20, 1863, and passed away at her home here May 8, 1919, at the age of 56 years and 18 days. She was married to Eugene O. Hawkins, March 19, 1882. To this union were born nine children, eight of whom with the father are left to mourn her loss, they are, Percy, Fred, Arthur, Earl and Esther, all of Antioch, Mrs. Ethel Craft, Mrs. Nellie Burnett and Eugene, of Lake Villa. She is also survived by eighteen grandchildren and a large number of other relatives.

Mrs. Hawkins was the daughter of Capt. Gillmore, who gave his life for his country in the Civil war.

The funeral services were held at the M. E. church Sunday afternoon and was attended by a very large number of relatives and friends. The remains were laid at rest in the Hillside cemetery.

Mrs. Hawkins was of a bright and cheerful disposition and to know her was to love her. She was a typical home maker and one who commanded the respect of all with whom she came in contact.

The family have the sympathy of all in their bereavement.

'Tis hard to break the tender cord  
When love has bound the heart,  
'Tis hard, so hard to speak the words,  
'We must forever part.'

Dearest mother we must lay thee  
In the peaceful grave's embrace,  
But thy memory will be cherished  
'Till we see thy Heavenly face.

Peaceful be thy silent slumber,  
Peaceful in thy grave so low;  
Thou no more will join our number  
Thou no more our sorrows know.

Weep not that her toils are over,  
Weep not that her race is run,  
God grant we may rest as calmly  
When our work, like hers, is done.

'Till then we yield with gladness  
Our Mother to Him to keep  
And rejoice in the sweet assurance  
'He giveth His loved one sleep.'

## Winners in Recent Township Contest

The list of the successful contestants in the different towns is announced by Superintendent Simpson. These contests have been held during the past three weeks and have been very successful.

The county contest will be held in the Libertyville Township high school building on Saturday, May 24, beginning at nine thirty o'clock. At this time those successful in the township contests will strive for county honors. The winners in the Antioch school are as follows:

Arithmetic—Howard Spafford, Mildred Hulik, Mabel VanDusen.  
Spelling—Anna Kret, Evelyn Brown, Beulah Harrison.

Reading—Nellie Paskausky, Helen Gray, Bernice Johnson.  
Penmanship—Elizabeth Anderson, Antoinette Smart, Isabel Preganzner.

Mildred Hulik also took second place in spelling.

The names of those winning highest honors in Lake Villa are:

Arithmetic—Ernest Quadenfelt, Clarence Nadr, Tom Jarvis.  
Spelling—Tom Jarvis, Hilda Wolff, Lawrence Hanson.

Reading—Eleanor Wald, Elizabeth Jarvis, Irene Sheehan.  
Penmanship—Everett Gonyo, Hattie Wolz, Katherine Minto.

Eleanor Wald was second in arithmetic and spelling also. Tom Jarvis had third in reading.

Race of Boat Builders.  
The Irish from time immemorial have been boat builders, although the west coast mackerel fishermen, or the hake coast to the south, or the haddock fisheries on the southeast must be visited to understand the real ingenuity of the Irish native boat builder. In a large way Belfast represents the high development of the shipbuilding industry.

## Who Can Curb Nature's Work on Sweet Cider

If an American citizen permits nature to take its course with a keg of cider, does he violate the war-time prohibition law?

This is a question which the Department of Justice has been asked to determine and there are thousands of persons in many communities who will be interested in the decision.

Can a citizen be held to have manufactured alcoholic or intoxicating liquors if there is found in his possession a keg of hard cider which, when it came into his possession, was non-alcoholic and as soft as mush. That is the issue. The aforesaid citizens performed no labor in connection with the keg of cider. He contributed nothing to the process of nature in making the cider hard and obnoxious to the general health and welfare of the community.

So far as the citizen is concerned, friends of hard cider argue, he is entirely innocent of any wrong in the transaction.

The prohibition argument, however, is that the citizen is blamable because he did not drink the cider before it reached an intolerant state. In many instances, the prohibitionist holds, the citizens unquestionably prayed for nature to hurry up in its process on the cider and in so doing technically aided and abetted an unlawful process. And therefore, he is guilty. Prove it, says the citizen.

### The World's Next Step

NO. 5  
Is the League of Nations a Workable Plan?

By CLARENCE L. SPEED  
(Written for and Approved by the Illinois Branch of League to Enforce Peace)

It is a remarkable fact that, in all the opposition that has come out to the ratification of the peace treaty containing the draft of the league of nations as it stands, scarcely a single responsible American statesman has come out flatly against the principle of a league to enforce peace.

Many have expressed serious doubts as to whether or not it would work. Others have said that this was not the time to establish it, and that it should wait until after peace was signed. Still more have pointed out this difficulty and that; and, because the American people are very largely headline readers, the impression has gone out that a great number of senators are unalterably opposed to any sort of a league of nations whatsoever.

There is no doubt that some of these objections to the ratification providing for a treaty are sincere. Some of them may not be. But the fact remains that nearly all these statesmen who depend upon the people for votes have left open a way of retreat so that, if it finally develops that public sentiment demands the league it can never be shown that they were unalterably against it.

There are many, on the other hand, who have so definitely committed themselves to the idea of a league of nations that they leave no loophole through which they may crawl if the idea is not favored by American voters. They have the courage of their convictions. They are so sincere that they are ready to stand or fall on their records.

Such a man is William Howard Taft, formerly president of the United States. By no stretch of the imagination could he be considered as backing a league of nations favored by President Wilson through partisan motives. Here is what Mr. Taft had to say in a public speech at Helena, Mont., the day after he had had the opportunity of reading the draft of the constitution of the league of nations as cabled from Paris:

"As lovers of your country and as lovers of mankind I ask you to use all your influence with our senators to have the treaties embodying the league of nations idea ratified. It is a real league of nations. It is not all that I wished, but comes near. It is a great deal better than I hoped. It contains within its terms provisions for its own growth. Indeed the exigencies of the European situation in the sphere of the league will probably require additional and more stringent provisions in some respects than appear in the present plan."

"There should be no doubt of its approval by the senate when it is embodied in the treaty."

Mr. Taft evidently is convinced that the league will work. President Wilson believes it will work. Lloyd George believes it will work. Even Clemenceau of France believes it will work. It has the complete support of the Italian government, which believes it will work. The little nations turn to it as their only hope of safety. They believe it will work.

If all of these people and these nations believe the league will work how can it fail to work? The only apparent chance of its failing to work would be in case there were enough strong powers against it, while it is young and untried, to keep it from working. But here you find the powers all for it. Who is going to try to upset it—some power like Liberia, or a beaten and helpless Germany? Why, even Germany now hopes it will work and work in a hurry, for without it there is no limit to the penalties that victorious neighbors might impose.

And the peoples of the world, even more than the governments, want it to work. Mothers and fathers whose sons are buried by the million on the battlefields of Europe are for it. Women who have suffered violence at the hands of invading armies, or who have fled headlong from their homes to avoid it, pray that it may become operative. Workmen who are hungry because factories are closed see in it a preventive of wars. People who have seen their savings jeopardized or swept away stand behind it.

No one, apparently, wants it to fail, yet there are some who doubt its success because, by careful searching, they can find difficulties in the way.

They may be of good cheer, and you may rest at ease, too, because, if by any chance this league which everybody wants should fail to work, there is nothing to prevent you fighting for your rights just as you did in the past. The United States faced a world in arms with very little preparation for war. She can face a world leagued for peace with an army or navy just as large or small as she chooses. There is not even the most remote probability of the United States ever fighting the league, unless it, too, becomes insane and needs a licking. If it does become necessary for her to fight nations which cannot be controlled by the league, there is nothing to prevent her from doing so.

Further information regarding the league of nations, including pamphlets of the covenant of the league and speeches made in its behalf, may be obtained at the office of the Illinois state branch of the League to Enforce Peace, 342 Monadnock block, Chicago, Ill.

## USE SANO FLOUR

## WHY?

- First—It is a high quality flour—milled at home  
Second—Much care is given to keeping the quality uniform  
Third—It is milled from the choicest wheat grown in the community. There is no freight paid on either wheat or flour; no expensive traveling salesmen. Thus we can afford to make better flour for the same price  
Fourth—A local flour mill helps to make a better community, as it encourages the growing of a good grade of wheat and offers a better market for it; besides, it furnishes mill feed to our farm people without an element of freight involved.

In justice to yourself and to our community you should give

## What is Castoria

CASTORIA is a harmless substitute for Castor Oil, Paregoric, Drops and Soothing Syrup. It is pleasant. It contains neither Opium, Morphine nor other Narcotic substance. Its age is its guarantee. For more than thirty years it has been in constant use for the relief of Constipation, Flatulency, Wind Colic and Diarrhea; allaying Feverishness arising therefrom, and by regulating the Stomach and Bowels, promoting the assimilation of Food; giving healthy and natural sleep. The Kind You Have Always Bought, and which has been in use for over 30 years, has borne the signature of Chas. H. Fletcher, and has been made under personal supervision since its infancy. Allow no one to deceive you in this. Counterfeits, Imitations and "Just-as-Good" are but Experiments that will wither and endanger the health of Infants and Children—Experience against Experiment.

Genuine Castoria always bears the signature of *Chas. H. Fletcher*

## WHEN BUYING ASPIRIN ALWAYS SAY "BAYER"

Ask for "Bayer Tablets of Aspirin" in a Bayer package—marked with "Bayer Cross."

Don't buy Aspirin tablets in a pill box. Insist on getting the Bayer package with the safety "Bayer Cross" on both package and on tablets. No other way!

You must say "Bayer." Never ask for merely Aspirin tablets. The name "Bayer" means you are getting the genuine "Bayer Tablets of Aspirin," proven safe by millions of people. Beware of counterfeits! Only recently a Brooklyn manufacturer was sent to the penitentiary for flooding the country with talcum powder tablets, which he claimed to be Aspirin.

In the Bayer package are proper directions and the dose for Headache, Toothache, Earache, Neuralgia, Rheumatism, Lumbago, Sciatica, Colds, Grippe, Influenza-Colds, Neuritis and pain generally.

"Bayer Tablets of Aspirin," American-made and owned, are sold in vest pocket boxes of 12 tablets, which cost only a few cents, also in bottles of 24 and bottles of 100—also capsules. Aspirin is the trade mark of Bayer Manufacture of Monoaceticacidester of Salicylicacid.

Danger in Abbreviation.  
Even the school nurse has her fun. In a talk before the central philanthropic council the other day, Miss Helen R. Stewart of the board of health told of one little boy who, after he had been examined by the nurse, went to the teacher in tears, complaining that the nurse called him names.

When the teacher expressed her surprise, the boy sought to prove his case by handing her the card the nurse had given to him as her record of the examination. "Look at that!" he cried. "Poor nut!" read the card. "Poor nutrition," explained the teacher, finally sending the child away with a better opinion of the nurse.—Dallas News.

Information Needs Confirmation.  
"Old Dorsey Dudgeon prides himself on knowing where the conflagration is as soon as he hears the fire bell ring," related the landlord of the Petunia tavern.

"By the time half a dozen whangs have changed he has scrambled into a garment or two and is out on his front porch, hollering to the people running by just where he knows the fire is."

"He should be of considerable assistance to the volunteer firemen and others in sending them in the proper direction," commented the interested guest.

Von Tirpitz a Pauper.  
The Tribune de Geneve is informed that Grand Admiral von Tirpitz is staying at Wildegg, Switzerland, as the guest of Lieut.-Colonel Wille, son of the former commander-in-chief of the Swiss army.

Tirpitz has lost all his fortune. His son is a clerk in a bank at Zurich, and his daughter is a governess in a Zurich family.

To avoid paying the German war tax of 1913 Tirpitz invested his money in Italian securities, with the result that he is now penniless. What a patriot!

Glossing Over the Fact  
"Pa, what is a euphemism?" "I'll have to explain that by giving you an example, son."

"Yes, pa." "The dictionary says a euphemism is a figure of speech by which a word or phrase more agreeable or less offensive is substituted for one more accurately expressive of what is meant," as in the case of the society reporter who states that a widow who has been married three or four times is "led to the altar" by a wealthy old codger who never had the slightest notion of getting married until he faced the preacher.—Birmingham Age-Herald.

## MEXICANS KILL U. S. MAN

Immigration Inspector Slain and Two Others Wounded During Battle With Smugglers.

Laredo, Tex., May 12.—Immigration Inspector Charles Hopkins was killed and two other officers were seriously wounded in a battle between immigration and customs officials and a band of Mexican smugglers.

The wounded men are Ira Hall of the Texas state health service, who was with the government party, and Jose Valdez, one of the smugglers.

The Mexicans opened fire when the Americans called upon them to surrender and Hopkins was killed in the first volley. Inspector Dunnaway of the immigration service had his thumb shot off during the fight.

## CONGRESS MEETS MAY 19

President Wilson Issues Call for Special Session by Cable—Unable to Attend Opening.

Washington, May 10.—President Wilson issued a call by cable for a special session of congress, to meet Monday, May 19.

Secretary Tumulty, in making the announcement, said it would be impossible, of course, for the president to be here on the opening day. The date fixed for the special session was much earlier than Democratic leaders had expected.

White House officials said that in naming an earlier date for the session, President Wilson was guided largely by the advice of Secretary Glass as to the necessity of passing annual appropriation measures, which failed in the closing days of the last session.

War Reunites Couple.  
Sandusky, Ohio, May 12.—Mrs. Florence Berry and her divorced husband, Benjamin Berry, Boston, just out of the air service of the United States army, met unexpectedly on the streets here Friday night. Saturday morning they were remarried. They had separated three years ago.

Three British Flyers Drown.  
Dover, May 12.—The bodies of three British aviators were picked up by a destroyer. The men were Lieutenants Stokes and Evans and Sergeant F. Moore. They had attempted to cross the channel in an airplane.

Foe Tried to See Wilson.  
Paris, May 13.—Count von Brockdorff-Rantzau, German foreign minister and chairman of the peace delegation, tried to obtain a personal interview with President Wilson, but was refused, says L'Intransigeant.
